

## **Mitch Patridge Bio**

### **Chairman and CEO of CSI Financial Services**

Mitch Patridge is an authority in healthcare and consumer finance and is Chairman and CEO of CSI Financial Services (CSI). Established in 1992, CSI is a national provider of easy-to-implement patient financing programs. In early 2003, Patridge purchased a controlling interest in the company and since then has been the motivating force behind CSI's vision of growth.

Patridge has built a successful team of professionals from both the healthcare and finance industries that are dedicated to the CSI mission – providing patient loan solutions that make sense for both the patient and the healthcare provider. The cornerstone of CSI's philosophy is to provide healthcare clients with a value added service and to treat patients with the utmost respect, compassion and dignity.

Patridge is a leader in his industry and proud of CSI's steady course of consistent results. In the last four years CSI has designed and announced numerous new and innovative patient financing programs structured to serve a much larger segment of the patient population. CSI's proprietary scoring, tracking, collection, and reporting systems have been continuously updated to meet the needs of the healthcare providers as well as CSI's banking partners.

Patridge has been featured extensively in the healthcare trade print media and has authored scores of articles, including *"The Impact of Tightening Credit Markets on Healthcare Collections"*, *"Evaluating Patient Financing Program,"* *"Compassionate Patient Financing Can Cure a Hospital's Financial Ills"*, and *"Ten Questions Hospitals Should Ask Before Considering a Patient Funding Program,"* which are on the CSI website at [www.csifinancial.com](http://www.csifinancial.com).

Patridge attributes a large part of CSI's success to the partnership approach it offers hospitals: "We listen to hospital management and structure our programs to insure that that our patient loan program is accepted by their patients and that our efforts enhance and streamline the processes that are already in place at the hospital."

This understanding of healthcare and the commitment to a high level of service has produced consistent growth for CSI both in terms of hospital clients and portfolio loans. CSI has provided hospitals with almost a quarter billion dollars in patient loans and has the licensing necessary to provide patient loans in every state in the U.S.

Patridge is a member of the San Diego HFMA chapter. He resides in La Jolla, California, with his wife Cammy, 15-year old son, Taylor, and nine-year old daughter, Skylar. He enjoys spending time with his family and surfing the beaches of Southern California.
